2200-GLADS Great Lakes Agency Database System (GLADS)

The Great Lakes Agency Land Database, programmed using dbase V, provides current and accurate information pertaining to land title and is used to account for all Land Consolidation Project transactions and collections. An inventory for a potential land sale can be recalled and printed on demand. Data is entered by realty staff, which includes probates, deeds to restricted Indian land for land consolidation as well as the acquisition and disposal sections. The database is capable of printing multiple reports when requested, including statistical information regarding tribal allotted, unallotted and fee interest.

The purpose of the system is to produce land inventories, summaries, deeds to restricted Indian land, exhibits "A's", and tract LCP transfers.

A. Source Records/Inputs

1. Source Records (Paper): The inputs are keyed into the system and include: probates, deeds to restricted Indian land for land consolidation, acquisition and disposal.

Disposition Instructions: Apply disposition instructions approved for paper and microfilm records. (Reference Indian Affairs Records Schedule record series for specific program records)

2. Source Records (Electronic): Electronic files or records used to create or update a master file, including, but not limited to, work files, valid transaction files, and intermediate input/output records. **(GRS-20/1b)**

Disposition Instructions: TEMPORARY. Delete after information has been transferred to the master file and verified.

B. Master Data File

The master data file contains land title information.

Disposition Instructions: PERMANENT.
